## ARTIFICIAL INTELLIGENCE (AI) AT THE HEART OF HEALTHCARE TRANSFORMATION: UNLEASHING THE FUTURE OF MEDICAL SCIENCE

Dr. Nawaz held the position of facility head at the Max-Planck Institute for the Science of Light in Erlangen, Germany, prior to coming to Pakistan. In 2015, he received Marie-Curie fellow at TU Dresden, Germany, where he completed his post-doctoral research. In 2009, he was granted a Fulbright scholarship to pursue his Ph.D. at Pennsylvania State University in the United States. He received best research dissertation award for Ph.D research. His research has garnered attention from U.S. News, local U.S. newspapers, and Penn State News, and his articles have been cited over 2000 times in esteemed international research publications.
